

CALL FOR PAPERS

68TH INDIAN FOUNDRY CONGRESS

28th February - 1st March, 2020
Chennai Trade Centre, Chennai

THEME OF THE CONGRESS

PARADIGM SHIFT Blueprint 2020

Organising Committee of this IFC aims to provide a platform for practising foundrymen to share their pathbreaking experiences with other elite foundry professionals, castings buyers, suppliers and equipment manufacturers.

Unlike the previous congresses, the organising committee proposes to have only selected presentations, with no parallel sessions, from elite practising foundrymen.

IFC Technical Papers Committee invites papers covering all issues related to Advanced technology, Product/process innovation, Skilling workforce/HR excellence, Environment, Health and Safety, Industry 4.0, Automation and Artificial Intelligence in alignment with the Theme 'Paradigm Shift'.

Preference will be given to practical presentations beneficial to the Foundry industry.

In view of aluminium castings gaining ground in the automobile industry, a separate Aluminium Conclave is also planned as part of the Congress. Papers pertaining to the Aluminium foundry industry are invited for presentation at this conclave.

All the selected papers will be circulated to registered delegates as an electronic version.

An abstract of approximately 300 words will be appreciated before 30th June 2019.
