Increase Your Sales Opportunities

Building brand "INDIA"

Indian casting manufacturing industry - 2nd largest producer of castings in the world, is one of the core industries in India. Since 2002, this industry has increased its production by around 136%, which clearly indicates its path. With the recovery of Indian and international economies in general and the automobile industry in particular which were hit by global economic recession, this industry is poised to achieve new heights.

The initiative to organise, CAST INDIA EXPO 2012 – Indian castings sourcing fair has been taken to provide a platform for the castings manufacturers in India to showcase their capabilities to the Indian and International buyers and to build brand 'INDIA' as a global sourcing destination for castings. This trade fair is being organized concurrent to 60th Indian Foundry Congress, 2nd Asia Foundry Forum and IFEX 2012 which is India's leading trade fair on foundry technology, equipment and supplies.

Be there where decisions will be made...

Exhibitors...

All the castings manufacturers from India are welcome to showcase their castings in this only trade fair of its kind.

Concurrent to

IFEX 2012

IFEX 2012 is India's leading trade fair on foundry technology, equipment and supplies. This trade fair covers the entire spectrum of the requirements of a modern day foundry. This will be an excellent platform for the Indian as well as overseas companies to showcase their state-of-the-art technologies and services being offered to get exposed to new business opportunities.

60th Indian Foundry Congress & 2nd Asia Foundry Forum

60th Indian Foundry Congress and 2nd Asia Foundry Forum will be organized concurrent to IFEX 2012 and Cast India Expo by The Institute of Indian Foundrymen (IIF) during 2-4 March, 2012 at the same venue. Indian Foundry Congress, over the years has emerged as one of the most important platform for foundry industry to discuss the latest trends & technological developments happening in the industry.

For further details on the Congress, please contact:
